

TO ALL MEMBERS OF CHAPTER 8;

While trying to raise raffle prizes for our up coming pool tournament, I made contact with several businesses that would much rather assist a veteran, preferably a Disabled Veteran, who needs repairs and /or modifications to their home and cannot afford to pay for the work or materials themselves.

The approval process takes 4 to 6 weeks before any work is started. One company (The Home Depot) will supply both material and labor, from their licensed contractors, as needed to complete the work.

If you are in need of services or repairs to keep your home safe and secure, contact me or Carl Kingsley, Adjutant. It goes without saying that all inquiries will be made in confidence.
