

The Gainesville Fisher House Foundation is dedicated to bringing a **"home away from home"** for veterans, military members and their families during one of the most stressful times: a medical crisis.

The Malcom Randall VA Medical Center Fisher House will service 50 counties in North Florida and South Georgia. The 16,000 square foot house will feature 20 all-accessible suites, a full kitchen, a playground and meditation garden.

The Fisher House program serves more than 10,000 families annually. The program has made more than 2.5 million days of lodging available since the program started in 1990. There is no charge to any guest at a Fisher House.

*Veteran Paul Corey and his wife, Marcey, both stayed in the Norfolk, Virginia Fisher House while he was undergoing a liver transplant.*

The Walk of Courage at the Malcom Randall VA Medical Center Fisher House is not just a monument to those who have served, but also a living memorial. Whether your loved one was dedicated to the service of our country or simply inspired you, their memory can be a substantial support to many.

## Supporting America's military in their time of need.

We provide  
**"a home away from home"**  
that enables family members to be close to a loved one at the most stressful time -- during hospitalization for an illness, disease or injury.

Thanks is no longer enough

The Malcom Randall VA Medical Center Fisher House will feature:

- a "home away from home" with 20 all-accessible suites, communal kitchen, laundry facilities, living area, study area, outdoor garden and playground areas.
- providing 10,000 guest nights each year
- location on the VA property, adjacent to the medical center
- building construction scheduled to begin fall/winter 2011

Our service members and veterans took an oath to serve, protect and defend this country. Though they ask nothing from us, we feel a great sense of duty to say, "Thank you," whenever we come across a person in uniform. Americans are grateful to the young men and women who go bravely into battle for the freedom we enjoy.

More than 31,000 service men and women have been wounded or injured in Iraq or Afghanistan. A simple thanks or spoken gratitude is no longer enough. Give thanks by getting involved with the Gainesville Fisher House Foundation, where ***"a family's love is good medicine."***

## "Because a Family's Love is Good Medicine"

We'd like to thank you for becoming a part of something meaningful, something truly rewarding.

As a contributor to the Malcom Randall VA Medical Center Fisher House, you will be helping our heroes at a time when they need it most.

The Fisher House, built by generous public donations, offers service members and their families a comfortable living environment during treatment for traumatic war-related medical crises. In most cases, these men and women are being treated far from home; their stays are lengthy due to the severity of their injuries or illnesses.

The Gainesville Fisher House will provide a refuge to veterans, military members and their families in 52 counties in the North Florida and South Georgia service region. It will also serve those from around the country who may come for specialty services.
