Dear Dr. C.,

You have Eric's e-mail (see Above). I do not know if Eric uses this email account to login to Zoom Meetings. I used the Chapter's email account to login to the November Chapter Zoom meeting. You will remember that you had to give the Chapter host privileges during the meeting.

Once you granted these host privileges I had to remain focused on giving access to anyone who wanted to join the meeting. This proved to be difficult as I was sharing my zoom screen thereby trashing my vision of members requesting entrance into the meeting.

The Chapter is grateful for you and your company, Career and Academic Transition Services, picking up the cost of Chapter Zoom meetings.

It's your decision if you want to place all your Corporate and personal Zoom Eggs in one basket. The Chapter has no right or interest in structuring your business. My concern, as expressed earlier, is what happens if you get run over by a bus? You and Eric are the Zoom experts for the Chapter and the Chapter is relying on your expertise and decisions in these matters.

Please let me know if you have any further information to add to the Chapters Video Conferencing Committee website reports folder.

Yours,
Jerry

Subject: Re: Zoom Credentials 2020-11-05

Hi Jerry, I am using the account for several things including for my Company, Career & Academic Transition Services, three other organizations that I am active with and my wife also uses it for her business and several organizations that she is active with.

I have put you name & email address in Zoom as a Co-Host and now I need Eric's phone number and email address.

As soon as I receive Eric's information I will also put him on Zoom as a Co-Host as well.

All of the meetings for DAV and already set up and all that you and/or Eric need to do is to click on the Link just as all of the other DAV members enter the meeting.

Because of confidentiality that is related to my corporate business activities and other organizational and personal information that is stores on Zoom, I have purposefully set up the Zoom meetings up for DAV that the Co-Hosts will not have a need or requirement to use a Zoom Password I order to enter Zoom to Co-Host or participate in the regularly scheduled monthly DAV meetings that are already scheduled and set up for a one year time period.

Thanks,

Jimmy

James Cornett, Ph.D.

Subject: Zoom Credentials 2020-11-05

Dear Dr. C,

Please send Eric and me your new Zoom Credentials so the chapter has access to the Zoom meeting controls if you get run over by a bus.

Also, this will allow me to download the meeting Video recording without your having to send it to me via email.

I think I know why the youtube.com spots were breaking up. I think I needed to mute my microphone so the audio did not get feedback through my microphone. Let's get together Via zoom and test out this theory.

Yours,
Jerry
