Commander:

Our agency, VetBizCentral Inc., is a non-profit which assists veterans in starting and/or expanding their businesses. We are headquartered in Flint and serve all of Michigan.

Recently one of our collaborators presented a possible entrepreneurial opportunity for a disabled veteran in the Lake Orion area.

The opportunity would involve a veteran starting his/her own small business in Lake Orion. We would help the individual with a business plan and with the effort to secure financing.

If you know of any unemployed disabled veteran wanting to start a small business, would you please refer that individual to us? We can then provide details of this opportunity.

We thank you and your members for their service to our nation and we look forward to hearing from you.

Regards,

Edward L. Ronders  
Executive Director
