Re: Thanks for Dinner for Veterans Day

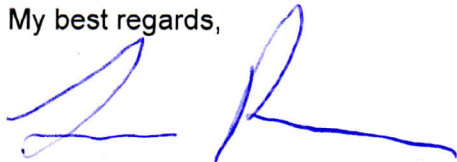

I would like to extend my thanks to everyone associated with the Veteran's Day Dinner at Lyons VA Medical Center on Friday, November 7 in Building 143 on the campus. The food was great, but even better was the thoughtful intent that was put on full display by everyone from the DAV and its Auxiliary.

It can be a difficult thing living in the Domiciliary, or at any of the other programs located on campus. Removed from one's family and loved ones, despair and loneliness can easily overtake people. However, your group provided an event filled with warmth and generosity.

The participation of everyone associated with this event reflects distinct credit upon not only themselves, but also the DAV and its Auxiliary as a whole. Once again, the concept of 'Veterans helping Veterans' takes center stage with your group, in a wonderful dinner that was enjoyed by all.

Personally, I am so appreciative and thankful for your efforts. Please convey my message of thank to all those who participated in the event, or supported those who took part in the event.

My best regards,
