The Washington State Health Care Authority provides the free Washington Prescription Drug Program (WPDP) Discount Card to all Washington residents. We currently have over 135,000 people enrolled and they have saved over $11 million. The program works and we want to get as many WA residents enrolled as possible.

Although this program does not coordinate benefits with insurance, the Basic Health Program, or Medicaid, we urge all Washington residents to enroll. Eligibility for other programs may change or there may be medications that are not covered by other programs or health plans. In those cases, the WPDP Discount Card can save them money on prescription drugs.

Here is why people should be encouraged to enroll:

- This card is FREE
- Every resident in the state of Washington is eligible, regardless of age or income.
- WPDP provides discounts of up to 60% on generic drugs and up to 20% on brand drugs.
- All prescriptions written by an authorized prescriber are eligible for a discount.
- A network pharmacy locator program is on our website www.rx.wa.gov.
- Free mail order service available for those not living near a participating pharmacy
- A drug price look up function is on our website: www.rx.wa.gov.
- Enrolling is fast and easy:
    - Online at www.rx.wa.gov: English and Spanish enrollment available
    - Call toll-free 1-800-913-4146 for all languages
    - Complete one of the postage-paid, self-addressed enrollment mailers

Agencies can order free enrollment and promotional materials at www.rx.wa.gov. Please feel free to call me if you have any questions, concerns or need assistance requesting enrollment materials. Thank you for your support of the WPDP discount Card.
